

# 2018 Terms and Conditions

## Native Forage Establishment Benefit

The Native Establishment Benefit provides establishment coverage on newly seeded native forage acres. Coverage is offered on a dollar per acre basis and is subject to a deductible of 15 per cent of the total liability.

### Conditions of Insurance:

- To be eligible for insurance you must complete the management questionnaire and return it by June 25 of the seeded year.
- Acres must be seeded by June 20.
- You must consult with a Ministry of Agriculture Regional Forage Specialist to discuss best management practices for establishing native forages.
- You must provide a copy of a certificate or report of seed analysis and seed tags.
- Seed must be a minimum of common No. 1 for varieties or equivalent standard for non-graded native forages.
- Seed must be free of Downy and Japanese Brome.
- Acres that are broadcast seeded are not eligible for insurance.
- Native forages seeded with a cover crop will not be eligible for insurance.
- Customers must follow recommended agronomic practices for establishing native forage.
