## 2018 Commodity Code Guide

**Delivered by SCIC**  
Saskatchewan Crop Insurance Corporation

### Using the Commodity Code Guide

The Commodity Code Guide contains applicable codes for participants farming in Saskatchewan. Participants can reference this guide to fill out their AgriStability/AgriInvest program forms. If you have a farm operation outside Saskatchewan and report Saskatchewan as the province of your main farmstead, you may require additional codes. Codes related to other provinces can be found online via the Agriculture and Agri-Food Canada website at [www.agr.gc.ca](http://www.agr.gc.ca).

#### Helpful Hints

- When reporting the amount of **Purchased Inputs (Section 10)**, on hand at the end of a fiscal year (i.e. grain, forage, fertilizer and fuel), use the *Commodity Codes* listed on pages 3-6 and the *Allowable Expense Codes* on page 43.
- When reporting **Deferred Income and Accounts Receivable (Section 11)**, which is income owed to you for goods or services delivered in the fiscal year, use the *Commodity Codes* listed on pages 3-6, *Allowable Program Payments* on pages 7-9 and/or code 9572 *Resales, Rebates, GST/HST* for allowable expenses.
- To ensure proper reporting of pooled commodities, any interims, adjustments or final payments from the sale of pooled commodities that are not being finalized until 2018 should be recorded as a receivable adjustment in **(Section 11)** of the program forms, using the correct commodity code. This will help producers account for any payments still owed for the sale of their pooled commodities in the 2018 program year.
- When reporting **Accounts Payable (Section 12)**, which is an expense owed for goods and services received but not yet paid for in the fiscal year, use the *Commodity Codes* listed on pages 3-6 and *Allowable Expense Codes* on page 43.
